

Fast Forward Window
size: 1¹/₈"x4¹/₂"
7/8" from left; 5/8" from bottom

Note: This (non-printing) dotted rule marks 2³/₄" from bottom of the envelope. In over 20 years we in Prepress have never heard of any instances of an envelope being rejected by the Post Office for having numbers (such as the ZIP code) in the "no-print" zone below this rule.

Theoretically, numbers in this area can be read by the USPS' scanner as a "To" address rather than a "From" address. **Proceed at your own risk.**
